Memorandum

To: Jackpile-Paguate EIS Task Force Members
From: Task Force Leader
Subject: Administrative Procedures

Confidential Claim Retracted

Authorized by: *SE*

Date: *6/25/81*

Attached is a memorandum dated March 2, 1981, which was provided to all GS Task Force Members. Please review this memorandum, and ensure that these instructions are followed.

Considerable confusion has arisen over the procedures used to obtain data from the Anaconda Company. To assure that each Task Force Member is receiving all of the necessary data, the following procedures will be used in the future:

1. Task Force Members will submit written requests for Anaconda data to the GS Task Force Leader, with a brief explanation of why the data is needed.

2. The GS Task Force Leader will then obtain this data from Anaconda, and forward it to the Task Force Members.

This procedure may be a little more time-consuming, but it will avoid duplication, and will avoid future confusion.

Finally, I would like to remind all Task Force Members that they must notify Anaconda before entering the mine. Forty-eight hours notice should be given whenever possible.
